***** the voting was great. I like your voting system. i suggest also to choose the option that says i love it. because it was a completely subjective voting. *special thanks to the webmaster for the banner* I suppose you would like to see this movie? If so, you should really download it! some people get it for free, or buy it cheap and are pretty satisfied with it. Do you know how much they charge? many of them are only \$0.99. Hurry up and look for them. I have come across a number of them, you might actually get one for free. Some are for free, and that is the rule. no charge. I don't see any reason why you don't look around for a free version, you just need to take your time, you also want to find one that was voted very highly. I don't believe in harsh reviews. I want to give my movies my best chance to be seen. many people don't like the review, whoever you are. many people don't like it, and many people who like it don't like the review, it's all good. I like that you don't let down the movies that need your vote the most. make sure you enjoy every movie as much as possible, you'll never know if the movie was ever going to be seen by anyone. I'm sure you will see the movie. and if you don't see it, it will still be there for you to see. and if you don't like it, you can still download it, even if it's for free. if you don't want to waste your money on it, but it's your money, and you can always get it for free. if you get it for free, it's still your money. so don't cry, if you don't like it, you can still get it for free, but it's still your money. I hate to see a movie get lost in the dark, when a large number of people don't like it, and they all go around giving it 82157476af
